

Subject: Great Race 2015 Results

Date: Monday, June 29, 2015 5:44 AM

\*The Great Race Kirkwood, Mo. to Santa Monica, CA. along Route 66 ended yesterday afternoon at the Pier in Santa Monica. There were smiles and hugs to all who finished in the warm California sun looking over the Pacific Ocean. Well done for all the entrants. The motto is: TO FINISH IS TO WIN\*

\*Last night the trophy presentation was held at the banquet at the Pacific Palms Resort in City of Industry, CA Coker Tire invited all to a morning tour of their facilities 2 miles from the Resort. Many will take the tour before leaving to go home.\*

\*The results of the Great Race ranked car number 95 owned/driven by Don Kloth and navigated by Chris Kloth and Dick Crabtree 48th for the cumulative results through 9 stages. They received 3 Aces, 2 with Chris as navigator and 1 with Dick on the final leg of the rally. Dick took over as navigator when Chris left the rally in Flagstaff to start a new job this morning in Columbia, MO.\*

\*Team John S. Chaney Memorial team with car number 32 placed 53rd overall and had 2 Aces along the way. Rod Jones drove his grampy's 1960 Ford in the memory of Isreal Chaney. My gran-daughter, Taylor Jones, and I navigated the rally. \*

\*Thanks to Herb and Patty Clark for leading the Great Race Tour and sending information to the ARC members. There will not be a Rusty Nuts newsletter this month, as Patty and MaryJo Monten worked hard to get updates of the daily activities to the ARC members along the way.\*

\*If you are interested in entering the Great Race 2016 from San Rafael, CA to Chicago, IL next year you need to act fast to secure a spot for the June 2016 rally. There are already over 30 signed up and many signed up last night.\*

\*We will be driving home from California today and intend to see the construction fence and trailer when we get into Sun City West. Thank you for all your prayers and support for the Great Racers and making The John S. Chaney Restoration facility a reality.\*

\*Tom Jones\* \*President ARC 2015\*
