

Subject: Great Race - Day 2  
Date: Monday, June 22, 2015 8:41 PM

Day 2 of the Great Race went from Springfield, MO to Oklahoma City, OK. The racers traveled on and off Route 66

Car #32 driven by Rod Jones and navigated by Tom and Taylor Jones (Tom's granddaughter) didn't have quite as good of a finish as Day 1 when they finished 57.95 seconds off a perfect score. They dropped from 53th place to 64th place. Rod had to replace motor mounts in the motel parking lot prior to the start of the rally. Taylor has done a great job as co-navigator, having never done a Great Race Rally.

Car #95 with Don Kloth at the wheel and Christopher Kloth navigating also dropped in the standings. After the first stage they were in 58th place. After two stages of the race they are in the 78th position. Don said the hills and wind were a tough match for his 1930 Speedster.

Gordon Monten's Car #102 with Lauren Matley navigating, had a vapor lock problem. This dropped them from 99th to 102 after two stages. They are hoping for a better run tomorrow as they will use some good schooling from Gordon's Dad to use an orange or grapefruit to cool down the fuel line. We hope it works.

It was a long day for everyone so we are hoping for a much better day tomorrow. Heading for Amarillo.
