

Subject: Great Race - Day 5

Date: Wednesday, June 24, 2015 10:53 PM

Greetings from Gallop.

Today was another challenging day for the Great Race. A total of 7 cars ended up being towed and one car was still not accounted for at 9 PM. Search cars were out traveling the course looking for it

Car #95, driven by Don Kloth and navigated by Chris Kloth had a great day. They finished in 30th place for the day with a score of 42.4. This moved them up to the 62nd position overall. Don enjoyed the course today with 7 shorter legs. Chris said he especially enjoyed two mazes. It was like playing a Pac Man game with cars everywhere going every direction. Although he said his best moment was receiving the ACE award from a previous day.

Don shared a story about the extra effort a young man from Gallup did today. As Don neared the finish line, his baseball cap flew off. A young man, going the opposite direction, was admiring Don's car when he saw the hat fly off. The young man turned around, rescued the hat, then found Don at the show to return it to him. Just one example of the many friendly people we've met along the way.

Attached is a photo of Don Kloth standing next to the SCW sponsorship sticker on his 1930 Ford Model A, and his grandson, Chris with his dust mask still on. In the background are Support Team members, Howard and JoAnn Johnson, also from SCW.

Rod and Tom Jones, Car #32, had a good day as well although it wasn't as good as their ACE day yesterday. Their score was 1:36.9 which was 54th place for the day. In the cumulative score, they are now in 51st place.

Tomorrow will take the Great Race to Flagstaff where they hope to see a lot of their friends from the SCW area.
